FIELDS

PRIMARY Industrial Organization
SECONDARY Public Finance, Economics of Education

PRIOR EDUCATION

M.Sc. in Econometrics and Mathematical Economics (with Distinction) 2017-2018
London School of Economics, London, UK

B.Sc. in Economics (with Distinction), Minor in Mathematics 2014-2017
University of Mannheim, Mannheim, Germany

JOB MARKET PAPER

Intermediation, Choice Frictions and Adverse Selection: Evidence from the Chilean Pension Market
(Best Job Market Paper Award, EEA and UniCredit Foundation)

This paper analyzes the consumer-welfare effects of intermediaries in a pension and annuity market with adverse selection. Intermediaries provide advice, helping individuals improve decisions when understanding products is complex and costly, but may introduce distortions due to agency problems. In insurance markets, intermediary effects on choices can impact adverse selection and, through it, prices. I document the importance of intermediation and its connection to adverse selection in the Chilean pension market, where products are complex and intermediaries have a financial incentive to steer consumers toward annuities. To quantify the effects of potential intermediary regulations, I develop and estimate a dynamic demand model that includes life-cycle decisions, product, and intermediation choices. I find intermediaries have the potential to improve welfare: retirees would give up around 250 USD a year to eliminate frictions in product choices. Despite intermediaries steering a majority of

their customers into annuities, a ban on intermediation is approximately consumer-welfare neutral. The variety of annuities allows intermediaries to recommend close substitutes to the outside option, limiting the harm from misaligned incentives. Decision costs without intermediaries and annuity price increases due to adverse selection erode any gains from a ban. In light of policy concerns regarding the role of intermediaries, my results highlight the potential value provided by advisors – even with biased incentives – when choices are complex and stakes are high.

AWARDS AND SCHOLARSHIPS

Best Job Market Paper Award, EEA and UniCredit Foundation	2023
Prize Fellowship in the Social Sciences, Princeton University	2022-2024
Harold Willis Dodds Merit Fellowship in Economics, Princeton University	2018-2019
Graduate Fellowship, Princeton University	2018-2024
German Academic Scholarship Foundation	2017-2018
UniCredit Summer School Scholarship	2017
Full Scholarship, German Academic Exchange Service (DAAD)	2014-2017
Andrés Bello Award, University of Chile	2014
Puntaje Nacional, Science PSU (Chilean university admission exam)	2013

PROFESSIONAL ACTIVITIES

Presentations and Seminars (including scheduled)

2023 Princeton University (IO)

Referee and Conference Service

Young Economist Symposium (organizer/editor 2021, referee 2022)

Seminar Organization

Princeton IO Workshop (Fall 2022), Princeton IO Student Lunch (Spring 2021)

LANGUAGE AND SOFTWARE SKILLS

Languages Spanish (native), German (fluent), English (fluent)

Software & Tools Julia, R, Stata, Matlab, Python, L^AT_EX

Chilean - German citizen
